(To be written on this margin)

OFFICE OF
THE MINISTER FOR PUBLIC WORKS.

NOTE

Camp Jog,

Dated.....8th February.....*194* 7

22.169

For improving the villages in the selected hoblis, it is quite necessary to encourage the poor villagers to build tiled houses in place of thatched huts by giving some concessions as providing timber, site on upset price, tiles on concession ~~xxx~~ rate, etc. The Revenue Commissioner may be requested to furnish definite proposals in consultation with the Deputy Commissioners, as to the concessions that may be extended to the villagers of the selected hoblis for constructing neat ~~tiled~~ houses.

Revenue Secretary w/c)

Grant of concessions for the construction of houses in villages.

From

The Revenue Commr

R OR 3 C 5:5/46 d 5-11-47

Forwards a note on the above matter.

Subd. 4) The Revenue Commr's report is for perusal there are certain suggestions in the proceedings of a meeting held in the Dycmr's office at Mysore on the subject held during June 1947. Flag A.

5) The problem of constructing houses has the following main aspects:

1) Grant of Building sites.

2) Supply of materials such as (a) bricks b) timber (c) iron and d) cement etc.

3) Labour. (4) Finance.

Govt's part in rendering assistance consists mainly in the direction of securing concessions for the procurement of con. articles that are next in the easy reach of the ryot; and to provide

6594 J 1885 47-48 VP 15-47

Concession to build houses in villages. 3

6) Suitable building sites. Circulars have been issued to invoke the provisions of Sec 17 of the LA Act and to dispose of the LA cases very expeditiously. In the Rayne District, Spl Revenue Inspectors have been ordered to be employed to attend to the LA cases but a lot of work has to be attended to after the land is taken possession of. Layouts have to be provided, Drains etc have to be constructed. These are matters in which the local officers should evince keener interest.

7) As regards the grant of sites, there is a suggestion to the effect, that the villagers may be granted sites free of cost as is being done in the case of the members of the depressed classes.

8) Coming to the supply of materials as timber, iron and cement and bricks, it is submitted, that the bricks can be manufactured ~~locally~~

R. 6561

'P' grant for building houses for Harijans etc in Mandapam RW. Centre.

LR 600-ub-1

From the Spl. Officer for Rural Dest
No-RD RS-C-642/46-47 dt 18-6-47

Requests sanction to the Resolution of the Mandapam RW. Centre for a grant of Rs. taken for construction of houses for the Harijan & other poor Hindus in the Centre.

1) The current year's grant of Rs. 7½ lakhs is almost completely allotted and the grant asked for by the Spl Officer for R-D cannot be met during this year. Since the year is almost over, the scheme of housing the Harijans etc envisaged in the Cabinet Resln., can at best be taken up next year. Part in the meanwhile, details of the scheme may be required to be worked up and rules for issue of Govt
2) Such large colonisation schemes have to be financed by special grants same timed for the purpose instead of being met out of the grants provided for the general scheme of amelioration which also covers to some extent the housing of individual
3) Subs for order.
4) The resolution covers people of Depressed classes as well as other poor persons - However. The latter cannot be provided any assistan

quarters etc. When houses
are built, the question of
providing other civic
amenities may be considered
by the Residents Welfare
Association (Flats & Individuals)
that may be formed by the
Flat owners & Owners of the
Individual houses.

12) In the circumstances
mentioned in the letter will be
informed to arrange for
necessary facilities being
provided at the Post
Office-cum-Telegraph Office, and
to apply for grant of
the Sub-Office, duly
filled in. demand drafts for
the supply of the Telegraph.
early - so that the
Postal facilities.

24/5/47 13) The resolution of the Conference is
very general in its nature. Unless the
details are worked out as to the exact
receipt and type of the Scheme

400

1.3.61 it is difficult to accept
R to begin with, a sum of Rs 10,000
maybe set apart out of the Programme
to village panchayat during 1961-62 &
be given to the Programme Assistant
Centre - for the construction of model houses
to the deserving poor people of the Harijans
Some selected villages included in the
Centre, area of the scheme may accept
Supplies, it maybe possibly
extended to other villages of the
Centre for which
directions be
2/3/61

14) Is there any Govt
order under which
Such Grant is admis
for & under which
it can be sanctioned
if so, the same
may be perused for
reference

7/6.

Secd.

15) Provision of housing
Amenities to Harijan class
is being done under the

6301/R

406/L

Scheme for the amelioration of the depressed classes. In which Spl grants are budgetted since the amenity relates to the area of Rural welfare centre grants under Assignments to VP's are asked for. Model houses are constructed in the Cheyyet centre area. There is no standing order under which such a scheme can be taken up out of grants under "Assignments to VPs"

Sm 11/6/47

Revenue Secretary. Lr Secretary for 17.6.47

Dr. WRS Bro 17/6

17) A copy of the G.O. 26-1-48 laying down the broad means to be adopted for the amelioration of Depressed classes in the State is placed below. Spl. grants given every year for the above purposes and in some cases, these grants are also utilised for laying out extensions for these classes. The Spl. Officer proposal is not solely for the Depressed classes and as such, the expenditure cannot be met out of the Spl grant for amelioration of Depressed classes.

Key 21/6 Bro (Revd) P(call the Agl Engr (PWD) Director Lr. Note Particulars from the Revenue Secretary 21/6

Subd

10) The Proposal is to provide a sum of Rs one lakh for the construction of residential quarters for the poor classes ~~of people~~ including harijans and other villagers. In the welfare centre area of Anuradhapuram this proposal almost means every looking up the construction of buildings, but of course, the poor and the harijans. If such a proposal should be accepted there would be similar representations from all parts of the State

11) The people should know ways and means for themselves and due encouragement will be given by the acquisition of lands for building sites, grant of licenses for the removal of building ~~sites~~ materials grant of licenses for the burning brick kilns and removal of stones from

6361/R

Subd

The above references are Reminde from the R D Cuttack requesting orders re: proposals for providing amenities to (1). the villagers themselves to provide better houses (2) and to Harijans at Anandapur centre to build better houses

Regarding point (2) the proposal was to grant one lakh & rupees to provide amenities to the Harijans under the existing rules, deserving Harijan can get Govt aid to the extent of Rs 300/- each and no further concession is envisaged. The above scheme is not included

NOTE—Contn. Sheet.

2082 ∫ 2102 ∫ 2490

Serial No.

in the programme of the Rural welfare centres. Further the finances of the state do not admit of any such venture now as on all, the abolition of the Rural welfare centres is under the contemplation of Govt. Hence the subject may be dropped the Court fund will be informed accordingly.

As regards subject no 1, viz providing facilities to the poor to build better houses, the previous references are not traced. They were placed as reference files to explain resolutions in RA. They did not reach discussion. Govt have been relying so far as providing sites are concerned. Recovery of conversion fine is being waived. Beyond that the state can not do any thing more. On reply to a similar question labled for discussion during RA of June 1949, an answer was furnished to — the effect that the work was suspended and not available.

444 J 2080) 2102 J 2490 VP 21-46-51

resolutions by enclosing letters received to reply and Govt. Similar reply was furnished in case of Resolutions.

19

It is thus clear that the subjects enhanced in the references are old, and answers are furnished in some form or other and the present reminders of the R.D.C are ostensibly intended to have the pending references set at rest by getting a reply from Govt. to pass them the old utopian proposals.

Hence the Rev Comm will be informed to treat these subjects closed

A draft letter is put up to Rdc

31/12/49

Please bring up.

BVN 3/1/50

These questions have already been considered and a definite reply given at the meeting of the legislative Council, June 1949 stating that the proposal is not practicable. Hence the R.D. Commissioner will be also informed accordingly.

The draft put up is for perusal before issue.

THROUGH: THE REVENUE COMMISSIONER IN MYSORE

Sir,

I have the honour to forward herewith, noted in the margin, an extract from the proceedings of the Anandapuram Rural Welfare Centre Conference held under the Chairmanship of the Minister for Public Works and Agriculture on 6.2.1947, regarding grant for construction of model houses for the poor backward people and the Harijans in the R. W. Centre area and to state that a sum of of Rupees one lakh has been asked for the purpose. Since the people in Malnad are very poor and are unable to construct good houses, I recommend that a special grant of Rupees One lakh may kindly be granted to the Rural Welfare Centre for construction of model houses for the deserving poor people and the Harijans in the Centre area.

7) ... RESOLVED THAT THIS MAY BE FAVOURABLY CONSIDERED.

Re:- Construction of model houses for Harijans and other poor people in the R.W.Centre are Anandapuram.

With reference to your letter No.AF.1585 dated 1-9-1949 on the above subject, I write to state that Depots have been since opened at all District Head quarters for the sale of Cartwheel materials and building sizes and purchases may be made from these depots. Only in cases of indents received from the Deputy Commissioners, for prefabricated doors and windows required for the construction of houses for Harijans, these are prepared and supplied from the Government Saw Mills, Shimoga.

26/11

35 Doors and 70 windows were drawn by the Deputy Commissioner Shimoga, during 1948-49 against his indent for 250 doors and 500 windows which were ready for delivery. The balance is being drawn during the current year. The indent of the Deputy Commissioner, Kolar District, for similar supplies during the year is also being met with.

Office of the Minister
for Local Self Government.

To

The Revenue Commissioner
Bangalore.

Sir,

I am directed to state that effecting improvement of villages in the selected districts it is quite necessary to encourage the poor villagers to build tiled houses in place of thatched huts by giving them some concessions such as (1) providing timber (2) grant of sites on reduced price and (3) supply of tiles at concessional rates. etc.

I am to request you to be so good as to furnish definite proposals in consultation with the Deputy Commrs, as to the concessions that may be extended to the villagers of the selected taluks for constructing tiled houses.

A consolidated report in the matter may be sent to reach this Secretariat by 15th March 1947 at latest.

Yours etc

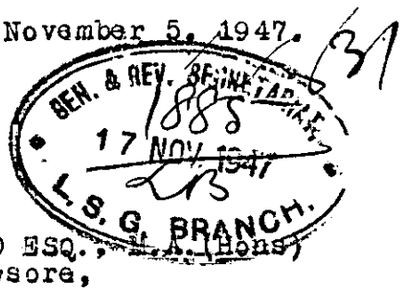
R3.C.515/46-47. OFFICE OF THE REVENUE COMMISSIONER IN MYSORE.

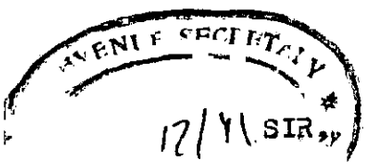
Bangalore - Dated, November 5, 1947.



FROM

RAJAKARYAPRASAKTHA S. NARAYANA RAO ESQ., M.A. (Hons)
Revenue Commissioner in Mysore,
BANGALORE.

TO



SYED ABDUL ALEEM ESQ., B. A.,
Secretary to Government, Revenue Department,
BANGALORE.

SUBJECT: RE: GRANT OF CONCESSIONS TO THE VILLAGERS OF SELECTED HOBLIS FOR THE CONSTRUCTION OF NEAT TILED HOUSES.

Adverting to your letter no.L.11695 dated 25.2.1947, stating that for effecting improvement of villages in the selected hoblis, it is necessary to encourage the poor villagers to build tiled houses in place of thatched huts by giving them concessions, such as:-

1. Grant of Sites.
2. Providing Timber, and
3. Supply of tiles at concession rates etc.,

and requesting me to furnish definite proposals in this behalf, in consultation with the Deputy Commissioners, I have the honour to state that the Deputy Commissioners of Districts, who were consulted in the matter, have suggested the following:-

1. GRANT OF SITES:

The Deputy Commissioners of Chikmaglur and Mandya Districts recommend that sites may be granted to poor and deserving people at an upset price fixed according to the merits of each case. The Deputy Commissioner, Tumkur District suggests that the price of sites to be granted may be fixed at Rs 0-0-3 per square yard. The Deputy Commissioner, Hassan District, states that sites may be acquired for village extensions out of Government grant, and granted to poor people at half the concession rate, whereas, the Deputy Commissioner, Bangalore District, suggests

that sites may be given at a price not exceeding the cost of acquisition. The Deputy Commissioners of Chitaldrug and Shimoga Districts are in favour of granting sites free of cost to poor villagers on the same lines extended to the members of Depressed Classes, under the Amelioration Scheme.

2. SUPPLY OF TIMBER AND OTHER WOODEN MATERIALS:

The Deputy Commissioners of Bangalore, Shimoga, Chickmaglur Hassan and Tumkur Districts are of opinion that " Mafi" Licenses may be issued to poor and deserving people for taking timber required for the construction of houses from the nearest District and State Forests. As regards the value of timber to be taken, the Deputy Commissioners of Chikmaglur, Shimoga and Hassan Districts suggest that it may be limited to Rs 15/- Rs 25/- and Rs 50/- respectively.

The Deputy Commissioner, Mandya District proposes that a timber Depot may be opened at each District Headquarters to supply various kinds of timber required for construction of house to Societies or Agricultural Depots, & that the timber may be made available to the poor villagers at half the rate fixed for each variety. The Deputy Commissioner, Chitaldrug recommends that each deserving family may be supplied with one door and two windows at 50% of the actual cost. The Deputy Commissioner, Kolar District, suggests that each poor family may be provided with two stone-pillars, one door, one window, two cement ventilators, casuarina poles, and jungle wood reepers at a cost not exceeding Rs 260/- for the construction of a room of 12' x 8' and a kitchen of 6' x 8'.

3. SUPPLY OF TILES.

The Deputy Commissioners of Kolar, Tumkur, Shimoga and Chitaldrug Districts recommend that tiles required for each family may be supplied free of cost as in the case of Depressed Class people. The Deputy Commissioner, Bangalore District, suggests that tiles may be supplied at half the concession rate,

Whereas, the Deputy Commissioner, Mandya District recommends that three fourths of the cost may be recovered. The Deputy Commissioner, Chickmaglur District is of opinion that a subvention of Rs 100/- for each family, or 2,000 country tiles may be given free of cost. The Deputy Commissioners of Tumkur and Kolar Districts suggest that the maximum value of concessions to be extended to poor villagers, including the value of timber etc may be limited to Rs 200/- and Rs 260/- respectively, whereas, the Deputy Commissioner, Chitaldrug District, proposes that certain amount may be set apart out of Rural Development Grant for the purpose.

4. FINANCES.

The Deputy Commissioners of Chickmaglur and Hassan Districts suggest that Takavi Loans repayable in easy instalments, at a concession rate of interest, may be granted to poor and deserving people, for the construction of tiled houses in rural parts, on adequate security.

The Deputy Commissioner, Mysore District has not made any definite proposals in this behalf, but has stated that the District Advisory Committee for Rural Development, at their meeting held on 31.8.1946, constituted a Sub Committee, to go into the question of preparing a detailed Scheme for the construction of houses in rural parts of Mysore District, that the Committee discussed the several aspects of the question, at its meeting held on 14.11.1946, and passed a resolution to the effect that no legislationis necessary, in the first instance, and that the existing rules should be strictly enforced in respect of new structures to be put ~~xxx~~ up in the villages. He has sent a copy of the Housing Scheme prepared by the Sub Committee, the proceedings of the Committee dated 17.6.1947, and also a copy of the resolution passed by the District Advisory Committee thereon, with his letter no. RD.278-C.3756/46-47 dated 30-9-1947, a copy of which is enclosed

herewith for kind reference. The proposals and and proceedings of the Sub Committee contain important and valuable suggestions on the Housing problems in rural areas, and also meet the several points raised in your letter under advertance.

After a consideration of the views furnished by the Deputy Commissioners of Districts, the following concessions are proposed for being granted to the villagers of the selected hoblis, for the construction of tiled houses.

1. The number of sites required for the purpose in each village should be determined with as little delay as possible, and suitable land acquired for the purpose. To minimize correspondence and avoid delay, selection of sites may be made by a Committee, consisting of:-

1. The District Rural Development Officer,
2. The District Health Officer, and
3. The concerned Sub Division Officer and Amildar,

The Committee may have the services of a Special Surveyor for the purpose of preparing layouts and plans. Land may be taken possession of, under Section 17 of the Mysore Land Acquisition Act, in urgent cases. The cost price of the site, which may not be much, may be recovered from the grantees, as a rule, but in the case of houseless applicants belonging to the Depressed Classes or those of other Communities, who are found to be poor and deserving, the Deputy Commissioners may grant the sites free of cost, subject to conditions of non-alienation etc. The loss sustained by such grants may be met from appropriation of Grants, under Rural Development funds.

2. Mere issue of " Mafi" licenses may not go far. The grantees are generally unable to secure suitable timber, and they may find it difficult to get the required articles made in time. If appreciable progress is to be achieved in this behalf, it seems necessary to arrange for doors, windows, ventilators, rafters, reepers etc., being made on a mass scale, and make them available at a little over cost price, to the grantees. The cost of these

Whereas, the Deputy Commissioner, Mandya District recommends that three fourths of the cost may be recovered. The Deputy Commissioner, Chickmaglur District is of opinion that a subvention of Rs 100/- for each family, or 2,000 country tiles may be given free of cost. The Deputy Commissioners of Tumkur and Kolar Districts suggest that the maximum value of concessions to be extended to poor villagers, including the value of timber etc may be limited to Rs 200/- and Rs 260/- respectively, whereas, the Deputy Commissioner, Chitaldrug District, proposes that certain amount may be set apart out of Rural Development Grant for the purpose.

4. FINANCES.

The Deputy Commissioners of Chickmaglur and Hassan Districts suggest that Takavi Loans repayable in easy instalments, at a concession rate of interest, may be granted to poor and deserving people, for the construction of tiled houses in rural parts, on adequate security.

The Deputy Commissioner, Mysore District has not made any definite proposals in this behalf, but has stated that the District Advisory Committee for Rural Development, at their meeting held on 31.8.1946, constituted a Sub Committee, to go into the question of preparing a detailed Scheme for the construction of houses in rural parts of Mysore District, that the Committee discussed the several aspects of the question, at its meeting held on 14.11.1946, and passed a resolution to the effect that no legislationis necessary, in the first instance, and that the existing rules should be strictly enforced in respect of new structures to be put ~~kex~~ up in the villages. He has sent a copy of the Housing Scheme prepared by the Sub Committee, the proceedings of the Committee dated 17.6.1947, and also a copy of the resolution passed by the District Advisory Committee thereon, with his letter no. RD.278-C.3756/46-47 dated 30-9-1947, a copy of which is enclosed

55

materials supplied to grantees of the Depressed Classes, will have to be met from the Depressed Class Amelioration Fund. ~~It~~ It would be very easy to have such Workshops at Shimoga, Hassan, Kadur and Mysore. If reasonable facilities are afforded, persons would come forward to establish them, and supply the finished articles without delay. It will not be necessary to depend on Teak only. Jungle wood of various kinds could be made use of. Cocoanut and Date trees could be used for rafters and reepers.

3. The Depressed Classes may be given a free supply of tiles required for their houses. If tiles are to be sold at concession rates to poor and deserving ~~xxxxxx~~ people of other communities, the work may become unmanageable, and the number of applicants would be large, and it may also lead to difficulties.

4. Loans at low rates of interest repayable in easy instalments may be granted to the deserving people, for the construction of houses.

I have the honour to be,
Sir,
Your most obedient servant,

S. Varadarajan

REVENUE COMMISSIONER.

HOUSING SCHEME.

The Chairman of the Sub Committee constituted by the District Advisory Committee for the Mysore District is asked to frame a Scheme for the construction of houses in the Rural areas of selected hoblis. As the Chairman of the Sub Committee, I suggest the following draft for opinion of the Committee, for submitting to the Advisory Committee:

The phrase "Construction of houses" is too general a term, so the question has to be considered under the following heads:-

> Is it for preventing over-crowding or for providing shelters to houseless people?

In either case, it is necessary to know the extent of Gramatana the way in which the existing houses are built with narrow crooked lanes with sewage running in the middle of the lane, or road, and two ~~three~~ or three families living in one house with their cattle and ~~no latrine~~ with no latrine in the village. Before any attempt is made to add some more houses to such villages, and defeat the object of the Government for providing healthy houses, it is therefore essential to acquire a suitable land and prepare good lay out to meet the requirements of the villagers to be detailed hereunder. Instances have come to my notice that proposals for extension of village sites and acquisition proceedings are pending for many years. Too much of formalities and want of coordination of one department with the other has damped the spirit of enthusiastic people who are anxious to own houses. Any recommendation that this Committee may make will fare no better, unless urgent possession of the required fresh land is taken immediately leaving all the formalities for consideration in the usual course.

Having taken the possession of the land, find out the number of new applicants. In addition to this, the number of families living in the village who are willing to build houses in the new site. After knowing the number of sites required for them and providing for further expansion later on for lay out of roads, places of Mandir, School, Play ground, Panchayat hall etc.

At a time when there were no roads and public safety, people used to huddle themselves in one locality for ~~ax~~ safety. Now that better arrangements have been made, and road and transport facilities are improved, it is better that we should ~~xxxxx~~ adopt new ideas of ~~g~~better living and ~~xxxxxxx~~ healthy surroundings. In Travancore, Malabar and other places, people have built their houses in their ~~xxxx~~ holdings and are quite comfortable with their cattle, manure pits, water facilities, stocks of food and fodder, ~~xxx~~ all in one place. Our Revenue Law allows a raiyat to build only farm houses and not living quarters in the sense of owning a house in its real sense. We must encourage such of the villagers who are willing to build and live in quarters and own houses in the ~~xxxxxxxxxx~~ cultivable land. A few guntas of land or about 1/4 to 1/2 an acre of land in the assessed land may be allowed for the purpose free of conversion fee. This is amply compensated by the house tax he pays to the Panchayat or Municipality. If such an encouragement is afforded, ~~xxxxxxxxxxxxx~~ many of the Becharak villages will be repopulated. In many of the Becharak villages lands are under cultivation but no population in them. As it is, people will ~~not~~ go for nearly a mile from their living places to cultivate their land in Becharak villages. Encouragement to build houses in their own land will be a great incentive to its people to build houses in their own fields in Becharak villages which are many in the District.

The next step to be taken after the selection of the site is to consider the types of buildings to be built. We are venturing upon a new scheme for better housing and lighting pupposes.

In carrying it out, we must be liberal in our views and consider the necessities from the Villagerls xxxx point of view; The types bf houses to be suitable for 1) Middle Class, and 2) The poor, and in either case, the following conveniences are to be provided:- a) Dining place, b) Kitchen,c) Stores, d)Shelter for cattle which are his wealth, e)Back yard with slab latrine,f) and a front Verandah or Jagali; which is an essential item and useful for many purposes. All important and usual work is usually done on Jagli. Proper ventilation should be provided. But back-yard should not be enclosed with hedges which harbour rats, reptiles and that every backyard should have a mud or brick wall.

Then allot the sites to suit the wants of each man, free of cost, or at nominal value, but not sell it on outright auction.

The next item is the material required for construction of houses. a) Mud, b) Sand, c) Water, d) Chuman, e) Bricks, f) Stones,g) Tiles, h). Cement, I) Wood, and J) Iron material.

Such of the materials which the individual can get may be gathered and the materials which require the help of others may be arranged under the Mass Production Scheme. Burning of bricks, preparation of Chumam, country tiles etc., are some of them. But the Government should arrange to supply windows, rafters, door frames, and bamboos at reasonable rates. The Government should have cut pieces of wood required for house building and engage carpenters to prepare frames and fix iron bars to the windows. No discretion to be given to house builders to have their xxxxxx.own chimneys, frames, cement, windows and rafters, Chajja etc. They will have to be prepared in localities where plenty of sand is available.

The next step is the labour for constructing houses. The present day difficulty is mostly in providing labour at a reasonable rates of wages. Villagers who want to own a house should seek their xxxxxxx assistance of their friends and neighbours agreeing to render their service in return to his neighbour. This system is known as "ಪಾಳಿ" in villages. The best arrangement would be to employ local labour paying them in kind or money. The other arrangements would be that all the people who want to own a house will join together and engage local or outside labour on terms of wages to be agreed to by them. So far as skilled labour is concerned, it has to be necessarily imported from outside unless such men are available locally.

The most important item of consideration is that of finance. The village house construction Scheme can be financed in four ways. 1) The Land Mortgage Bank has now enlarged its scope. Loans are issued not only on the security of lands but also on houses. The period of repayment being 20 or more annual instalments with a reduced rate of interest. The limit of loan to be advanced is now enhanced to ten thousand rupees. Every man who wants to own a house will purchase some share of the Bank on the security of his properties if any, or offer the site and the full building to be raised thereon as a security. But the Land Mortgage Bank may feel shy of advancing security of would-be constructing house. All the moneys need not be advanced at once, but only such percentage of the amount in proportions to the progress of the work may be paid. A little bit of give and take on either side is desirable. The object of the Land Mortgage Bank is to extend the help to villagers. The money has ample security. Annual interest is guaranteed and repayment is assured with the help of the Revenue Department.

House building Co-operative Society should seek such opportunities and come to the aid of the people who are in need of help.

xxx Our Government has an ambitious programme of Village Reconstruction. Money may be advanced out of this Village Improvement Fund to individuals with permission to supplement with the aid of the Land Mortgage Bank or House Building Co-operative Society.

38

Individual who can afford to pay for his house to be constructed partly can ~~be~~ get the help from any of the three sources mentioned above.

The last point for consideration is that of supervision. The complicated Government machinery is unsuited for this purpose. Each Department has its own code of prestige. A child should not be made to suffer in the quarrel between husband and wife. There is no proper co-ordination between one department and the other. A special Agency for the particular locality to supervise the construction and to guide the labourer is all that is necessary. A maistry of some experience on the spot is all that is necessary. His work will be supervised by the District Development Officer, who should be held responsible for all arrangements, allotment of sites, arrangements to supply of windows, door frames and materials, and procuring finance under any one or more terms mentioned above.

These are the general lines on which houses have to be built either by way of removing over-crowding in villages or in the extensions and to improve the sanitation in villages. Details of every item will have to be worked out, consistent with the situation in each proposal."

T. Meughan

FOR REVENUE COMMISSIONER.

PROCEEDINGS OF THE SUB COMMITTEE MEETING HELD IN THE DEPUTY COMMISSIONER'S OFFICE MYSORE ON 17.6.1947 at 3 P.M.

39

Members present:-

1. Rajasegasaktha C.Narasimhiah, (In the Chair)
2. Mr. Krishna Iyengar - Executive Engineer,
3. Mr. Venkatachalam, Health Officer,
4. Mr. Channabasappa,
5. Mr. Chikkalingiah.

Read letter of the Deputy Commissioner, dated 28th April 1947.

The Committee offers its thanks to the Deputy Commissioner for appreciating the suggestions made by it. The Deputy Commissioner has asked the Committee to draw up a regular proposal on the lines already suggested by the Committee for the consideration of the District Advisory Committee. The Committee, in its meeting held on 17.6.1947, after full discussions have resolved to recommend the following proposals for the consideration of the Board:-

1. Lands necessary for the construction of new houses and extensions and for improvements to the existing villages should be acquired by mutual agreement on reasonable terms even if it is a matter of a few rupees more or less andpossession taken immediately. Acquisition under the Act to be resorted to as the 1st step, and

2) Permission authorising the owners of the land to build living quarters in their holding, be freely granted by amending the Revenue Act or rules if necessary.

3) Application in the form annexed to be received from persons desirous of owning houses in any village or elsewhere with all the details by the District Development Officer.

4) The District Development Officer to colate and classify the application under the several heads and enter the same in the register kept for the purpose.

5. A set of different types of sanitary Model House plans to be kept in the Panchayat Office for inspection and selection.

6. The District Development Officer to arrange immediately for the layput of the plans and allot sites to each applicant.

7. The District Development Officer to take action to arrange for the purchase of the requirements of a single village or group of villages to be placed at the disposal of the House Building Co-operative Society.

8) The District Development Officer to arrange for funds required through Land Mortgage Bank, Apex Bank, through House Building Co-operative Society, b) to develop funds and to arrange to enrol the applicants as members of the House Building Co-operative Society and others.

9) To Arrange to get timber and bamboo and other building materials, cut pieces of timber fit for door frames, windows, reepers at concession rates, that is, 25% less than the market rates.

10) A similar concession at reduced rate of 25% for the supply of iron and cement.

11) Tiles supplied free to Depressed Class and 25% concession to

other people.

12) To appoint staff of Sub Overseers, Overseers to lead and guide by the standard rules of the P. W. D. in all matters to look after and develop the Scheme.

13) To call for monthly report of work done

14) The District Development Officer to select village or group of villages for this important purpose, and arrange for its sanitary and other arrangements and to issue licenses for construction of houses.

15) The concession materials referred to above to be supplied through the House Building Co-operative Society to the individual or group of people.

These are some of the proposals we recommend for the consideration of the Board.

Form of Application to be submitted to the District Development Officer from persons who are desirous of building houses in.....

1. Name of Applicant.

2) What may be his estimate of the house he wants to construct.

3) Whether he is prepared to pay the value in lumpsum or in instalment.

4) Building:-

a) Whether he himself will construct,
b) Whether he wishes to join others and build jointly.

4. ~~[illegible]~~
c) Mud Wall or Brick Wall.
d) Whether he agrees to collect materials such as burning of brick and lime-kilns, sand, mud, jally through Panchayat or jointly.

5) Whether he wants pot tiles or Mangalore tiles or terrace.

6) What kind of timber, whether teak, jungle or other variety.

7) What is the amount he wishes to borrow from the House Building Co-operative Society or other institution and whether he is willing to undertake that he will not alienate the property till the loan of the society is discharged and that the property to be built will be a security for the loan amount."

OFFICE OF THE COMMISSIONER FOR RURAL DEVELOPMENT, COMMISSIONER FOR THE AMELIORATION OF DEPRESSED CLASSES AND SECRETARY, CENTRAL DEVELOPMENT COMMITTEE IN MYSORE,

REVENUE SECRETARIAT 28 JUL 1949 LAND'S BRANCH

Bangalore, Dated, July 25 *19* 49.

If kindly perused it pertains R.W. TO

JANAB SYED ABDUL ALEEM, B. A.,
Secretary to Government, Revenue Dept.,
BANGALORE.

SIR,

Re: Construction of model houses for Harijans and other poor people in the R. W. Centre area, Anandapuram.

With reference to your letter no.L.16579/V.F. 21-46-36 dated 28.7.1947 calling for certain particulars on the above subject, I have the honour to forward herewith a detailed programme prepared by the Secretary, R. W. Centre, Anandapuram for the construction of houses for Harijans and others in the R. W. Centre area. It is proposed to construct 134 houses for Harijans and 57 houses for other poor people and 9 villages for the former and 10 for the latter have been seledted for this purpose. The total cost for this scheme is reported to be Rs 1,64,666/- The economic ability of the people for whom houses are proposed

to be built has also been briefly stated in the enclosed statement. The Secretary has reported the houses would be built as far as possible on the existing sites and separate proceedings would be taken for acquiring land for sites wherever necessary. No such scheme has been sanctioned in respect of the other two centres. The Scheme involves an expenditure of more than 1½ lakhs of rupees and there is no reason why such heavy amount should be spent on one particular centre. I am therefore not in favour of the same.

Yours faithfully,

COMMISSIONER.
